

Search Tip:

This is a large document, but you can search quickly and easily by clicking on the binocular icon on your toolbar or using the CTRL+F search function from your keyboard. It will then display a search box for you to type in the name of the drug you want to locate. If you do not know the correct spelling, you can start your search by entering just the first few letters of the name.

RxCents (Cost Savings Enabled by Tablet Splitting)

Tablet splitting helps control prescription drug benefit costs and can provide significant savings for members. Participation in the program is voluntary. Through this program, members pay up to one-half of their usual copayment on a select group of prescription drugs. Drugs included in this program are based on the following criteria:

- The drug product is on the formulary.
- The drug product is recognized as an appropriate product to split by the Pharmacy & Therapeutics Committee.
- The drug is flat priced (i.e. various strengths of the medication must be comparably priced).
- The medication must have once-daily dosing.

An example of the savings that can be realized through this program is illustrated below:

	Product & Strength	Quantity	Member Copay	Member Annual Savings
Without Tablet Splitting	Drug A 40 mg tab	30	\$15.00	
With Tablet Splitting	Drug A 80 mg tab	15	\$7.50	\$90

As the example illustrates, tablet splitting allows members to receive the same dose in a fewer number of tablets; thus, the overall
